

## REMARKS

Receipt of the Office Action mailed September 13, 2000 is acknowledged. Claims 9 and 10 have been amended. Claims 1-4, and 5-19 are pending. Entry of the forgoing amendments and favorable reconsideration are earnestly solicited.

Claims 1-17 stand rejected under 35 U.S.C. § 112, second paragraph as allegedly being indefinite. Claims 1-7, 11-14 and 15-16 stand rejected under 35 U.S.C. § 103(a) as allegedly being obvious over Scholze et al. (U.S. Patent No. 4,238,590) (hereinafter "Scholze '590"). Claims 1-2, 4, 6, 15 and 16 stand rejected under 35 U.S.C. § 103(a) as allegedly being obvious over Scholze et al. (U.S. Patent No. 4,374,933) (hereinafter "Scholze '933").

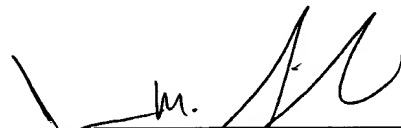

Claims 9 and 10 were rejected for failing to have adequate antecedent basis. These claims have been further amended herein to clarify that the compound of the formula (VI) as set forth in these claims is a specific embodiment of the formula set forth as formula (IV) in claim 1. As can be seen at pages 17 and 18 of the specification, the formula (VI) in claims 9 and 10 is identical to the formula (IV') described on page 18 of the specification, which is a particular embodiment of the formula (IV). Accordingly, the formula (VI) as set forth in claims 9 and 10 has proper antecedent support from formula (IV) in claim 1, from which these claims depend.

For this reason, and the reasons set forth in the February 13, 2001 response, these rejections are respectfully traversed. For brevity, the arguments set forth in the February 13, 2001 response are not being reiterated herein.

In view of the foregoing, it is respectfully urged that the present claims are in condition for allowance. An early notice to this effect is earnestly solicited. Should there be any questions, Examiner Fortuna is courteously invited to contact the undersigned at the telephone number shown below.

Respectfully submitted,
